

HGCA Recommended Lists® Trials

Winter oilseed rape update 2006

Data were assembled with care but treat differences below the LSD cautiously. Performance variation is not Crop Evaluation or HGCA's responsibility.

21-Aug	Variety	Type	Gross output (% of Fortis, Disco, Winner & Castille)				Lodging	Stem stiffness	Shortness of stem	Flowering	Maturity	Light leaf spot	Stem canker
			Treated			Untreated							
			4-year			4-year							
	ID		UK	North	South	UK							
Control mean			4.7	4.8	4.7	4.0
